Success in Transplanting

trees and shrubs has its foundation in the care given them in the nursery. Our stock is transplanted often to insure a fibrous root system close to the plant.

All evergreens are carefully dug with a solid ball of soil which is wrapped with burlap and properly tied to prevent breaking. The rich soil in our nurseries is especially adapted to this method of handling, thus allowing the transplanting of our evergreens at any time with the utmost of safety.

Special Notice

We shall esteem it a great favor if you will give us in the space below, the NAMES and ADDRESSES of any friend or acquaintance who is apt to use Seeds, Plants, Bulbs or Nursery Stock. We wish to send them our Annual Catalogue. Thank you.

NAMES	POST OFFICE	COUNTY	STATE

Freight prepaid to any point within 50 miles of Seattle on \$10.00 or more of Nursery Stock.

Postage prepaid by us on all package seeds and other items indicated.

(OVER)

[illegible]

For the beautification of your home grounds you are invited to consult our experienced staff of nurserymen who are at your service to give information regarding desirable plants, trees and shrubs, together with cost estimates.

If you are contemplating planting an orchard or only a few trees for your own use, we offer you the advantage of our experience of thirty years in this section, concerning best varieties and care of stock.

Our methods of digging and packing assure safe delivery of your order

Nursery Stock Catalog and Planting Guide

The fall edition of our illustrated 1925 Nursery Stock Catalog and planting guide listing our complete line of superior grown ornamental and fruit nursery stock is now ready for distribution, and is mailed free on request.

The Spring 1926 nursery stock catalog including vegetable and flower tested seeds will be ready for mailing in January.

MALMO & COMPANY

MAIL ORDERS

For those who are unable to call at our sales yard or nursery to make personal selection of the stock desired, we offer the service of our mail order department. Its staff of experienced nurserymen and seedsmen, will make the selection for you with the same care as if acting under your immediate personal supervision. We realize that the satisfied customer is the essential factor in the business growth that has made us the largest nursery mail order establishment in the Northwest.

HOW TO ORDER—Kindly fill out order sheet carefully, sending in same as soon as convenient after receiving this catalog. Nursery Stock, Seeds and Bulbs should have the desired quantity written distinctly in the column provided for that purpose, with price after each item.

Packing and Shipment—We are especially equipped for packing Nursery Stock and Seeds for long distance shipping. We have had thirty years experience in handling goods of this class and pack to insure arrival at destination in good condition regardless of distance.

Freight—On Nursery Stock orders of \$10.00 or more we prepay freight charges to any point within 50 miles of Seattle. On orders for less than \$10.00 add enough to cover transportation.

Parcel Post. Parcels weighing 8 oz. or less, containing seeds, cuttings, bulbs, roots, scions and plants, 1 cent for each 2 oz. or fraction thereof, regardless of distance.

Other parcels of fourth class matter are chargeable according to distance zone as follows:

Domestic Parcel Post Rates			For First Pound Allow	For Each Additional Pound Add
Within the U. S. and Possessions, zones from Seattle, Wash.				
First Zone	within 50 miles		\$0.07	\$0.01
Second	" 50 to 150 "		.07	.01
Third	" 150 to 300 "		.08	.02
Fourth	" 300 to 600 "		.09	.04
Fifth	" 600 to 1000 "		.10	.06
Sixth	" 1000 to 1400 "		.11	.08
Seventh	" 1400 to 1800 "		.13	.10
Eighth	" over 1800 miles		.14	.12

The limit of size of a package that will be accepted by parcel post is 84 inches in length and girth combined. Larger packages must be forwarded by express or freight.

TERMS—Cash with order. Send remittances by Money Order, Draft or Registered Letter.

We exercise the greatest care to furnish seeds, bulbs, plants, shrubs and trees that are pure and reliable, but owing to the various conditions of climate, soil and cultivation attending success, we do not warrant in any way, express or implied, the description, purity, productiveness or any other matter of any seeds, bulbs, plants, shrubs or trees sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof and the goods must be returned to us at once and the money will be refunded.

References—The National City Bank or any bank or wholesale house in Seattle.

LOCAL CUSTOMERS

You may order by telephone. Shopping from your home is facilitated by our telephone order department. It provides you with a quick and efficient method of placing your order which will receive the same careful and prompt attention by our experienced nurserymen and seedsmen as if you were present.

"Prices Lowest Consistent with Quality"

INDEX ON FRONT INSIDE COVER

FLOWERING BULBS FOR FALL PLANTING

There are no flowers which will give more pleasure and satisfaction than the Winter and Spring Flowering Bulbs. Their culture is so simple and easily understood that anyone can have splendid success with them by exercising a little care and forethought. On the Pacific Coast most bulbs may be planted from October to February. Bulbs planted in October or November will give better results than if planted later. By planting early flowering bulbs, it is possible in our mild climate to have a continuation of flowers the year round.

TULIPS

The climate on the Pacific Coast is ideal for the growing of Tulips. They may be left in the ground from year to year, otherwise the directions for culture are the same as for hyacinths, except that tulips cannot be grown in water.

EARLY SINGLE TULIPS

The following list is made up entirely of the best varieties, all of which are suitable for either forcing or bedding. We import only the highest grade first size bulbs which always give the best results. Malmo pays the postage.

EARLY TULIP—De Wet

	Doz.	100		Doz.	100
Couleur de Cardinal. Velvety crimson, inside glittering scarlet.....	1.00	7.50	Albion. (White Hawk.) One of the finest pure white. Large.....	\$0.75	\$5.50
Cramoisie Brilliant. Bright vermillion; large flower.....	.75	5.50	Artus. Deep brilliant scarlet, dwarf.....	.60	4.50
Cullinan. (New) Opening white changing to delicate pink; extra large flower; long stem.....	1.00	7.50	Belle Alliance. Brilliant scarlet; sweet scented.....	.75	5.50

Fred Moore. Deep apricot orange; very early.....	.75	5.50	Cottage Maid. Soft pink, suffused with white.....	.60	4.50
Gold Finch. Yellow; sweet scented.....	.75	5.50	Chrysolora. Pure golden yellow; large.....	.75	5.50
Herman Schlegel. (Primrose Queen) Sulphur yellow.....	.75	5.50			
Ibis. Clear deep unfading pink; long erect stems. Extra fine.....	1.00	7.50			
Keizerskroon. Scarlet; heavily edged with golden yellow. Very large flower, long stem.....	1.00	7.50			
Lady Boreel. (Joost Van Vondel White.) Pure white; large.....	.75	5.50			
La Reine. White, suffused with rosy blush on edge.....	.60	4.50			
La Reine Maximus. Same color as La Reine, but very much larger.....	.75	5.50			
Pink Beauty. Bright pink, slightly shaded white; fine heavy texture.....	1.25	9.50			
Prince of Austria. Bright orange vermillion; large, fragrant.....	.75	5.50			
Prosperity. (Reine des Reines.) Deep clear pink.....	.75	5.50			
Rising Sun. Brilliant golden yellow.....	1.00	7.50			
Rose Grisdelin. A delicate pink.....	.75	5.50			
Rose La Reine. Exquisite clear pink; very large.....	.75	5.50			
Rose Luisante. Fine deep brilliant rose; large; excellent.....	1.00	7.50			
Vermilion Brilliant. Dazzling vermillion scarlet; large.....	1.00	7.50			
Yellow Prince. A golden yellow; sweet scented.....	.75	5.50			
All colors, mixed.....	.60	4.50			

EARLY DOUBLE TULIPS

The double varieties are a little later in blooming than the single. Their large peony-like flowers in brilliantly contrasting colors are excellent for bedding and they also force well.

	Doz.	100		Doz.	100
Boule de Neige. (Snowball.) Large, pure white, peony-like flower.....	\$0.75	\$5.50	Tea Rose. (Brimstone Beauty or Yellow Murillo.) Saffron yellow.....	.75	5.50
Couronne d'Or. Yellow, tinged orange. Best yellow.....	.75	5.50	Tournesol. Red, yellow bordered; very showy.....	.75	5.50
Imperator Rubrorum. Bright scarlet.....	.75	5.50	Vuurbaak. Bright vermillion; large flower.....	.75	5.50
Murillo. Extra fine blush pink.....	.75	5.50	All colors, mixed.....	.60	4.50
Rubra Maxima. Rich deep red.....	.75	5.50			

MAY FLOWERING OR COTTAGE TULIPS

The May Flowering Tulips, like the Darwins, flower late. Many of the varieties are used extensively for late bedding and are magnificent for this purpose. The pale primrose, deep yellow, and splendid white varieties are often planted with the Darwins for effects of contrast. The following list contains the best varieties. Malmo pays the postage.

	Doz.	100
Ambrosia. (New.) Large flowers on long stems. Inside salmon orange, outside shaded rose lilac. Each 25c	2.50	19.00
Avis Kennicott. Rich yellow, large---	1.00	7.50
Bouton d'Or (Golden Beauty) golden yellow, long stems-----	.65	5.00
Caledonia. Orange scarlet---	.65	5.00

The Fawn. Dove or fawn color; large	.75	5.50

May Flowering Mixed. All colors---- .60 4.50

MAY FLOWERING TULIP
Gesneriana Spathulata Major

MAY FLOWERING TULIP—Mrs. Moon

A SECTION OF A FIELD OF TULIPS IN THE TRIAL GROUNDS AT OUR GEORGETOWN NURSERIES

GIANT DARWIN TULIPS

Darwins are the most popular Tulips for outside planting. They flower in May, are of giant size and have a majestic beauty distinctively their own that is invaluable for garden and landscape effects. They come in the most varied and brilliant colorings, and their immense flowers of perfect form and satiny, wax-like texture, long stems and lasting qualities, make them ideal for both bedding and cutting. Malmo pays the postage.

DARWIN TULIP—Farncombe Sanders

	Doz.	100
Mme. Krelage. Pink, margin pale silver rose-----	.75	5.00
Massachusetts. Vivid pink toning to soft pink on edges; white center -----	.75	5.00

La Tulipe Noire. Nearest to black---	.75	5.00
Lenotre. Beautiful clear pink, strong stem -----	1.25	9.50

REMBRANDT TULIP

BREEDER TULIP—Louis XIV

PARROT TULIPS

The petals of these tulips have peculiarly feathered and fringed edges giving them a very odd ragged appearance. This characteristic, together with the showy striped and shaded coloring and long stems make them unlike any other tulips and a striking and lasting effect in the garden.

	Doz.	100
Admiral of Constantinople. Large; red tipped with orange-----	\$0.65	\$5.00
Cramoise Brilliant. Deep crimson----	.65	5.00
Lutea Major. Pure yellow-----	.65	5.00
Markgraaf. Inside orange, outside scarlet and yellow-----	.65	5.00
Perfecta. Yellow, scarlet feathered----	.65	5.00
Mixed. All colors-----	.60	4.50

REMBRANDT, BYBLOEM AND BIZARRE TULIPS

These flower at the same time and are somewhat similar to the Breeder and Darwin Tulips, but do not grow so tall and are quaintly and very attractively striped and feathered in contrasting colors. They appear especially to advantage in clumps among shrubs or in a border.

	Doz.	100
Rembrant Tulips. All colors mixed--	\$0.75	\$6.00
Bizarre. Choice mixture of varieties--	.85	6.50
Bybloem. All colors mixed-----	.75	6.00

BREEDER TULIPS (May Flowering)

The Breeder Tulips are a most attractive class; the "art colors" are in dull or soft tones of buff, bronze or purple; they are unusually large, of excellent form and borne on tall, sturdy stems. Because of their great lasting qualities they are very popular. Malmo pays the postage.

	Doz.	100
Bacchus. Dark violet blue, grape color, large egg shaped with tall strong stems-----	Each 25c	\$2.50
Bronze King. Bronze and yellow----	.75	5.50
Bronze Queen. Outside petals soft bronze, inside golden bronze-----	.75	5.50
Coridion. Clear yellow, bronze shaded	1.50	10.00
Don Pedro. Coffee brown, large-----	1.00	7.50
Feu Ardent. Fiery red, darker towards the bottom; forces well-----	1.50	10.00
Indian Chief. New. Coppery-red, large flower on tall stem--	Each 50c	5.00
Jaune d'Oeuf. Heliotrope changing to yellow; forcing-----	.75	5.50
La Singuliere. White, changing to wine red-----	.75	5.50
Louis XIV. New. Royal purple flushed golden-bronze; globular flowers-----	Each 35c	3.50
Panorama. Mahogany red, forcing---	1.00	7.50
Yellow Perfection. Bronze yellow with golden edge-----	.75	5.50
Breeder Mixed. All colors-----	.75	5.50

PARROT TULIP—Lutea Major

HYACINTHS

CULTURE

Outdoor Culture.—The bulbs may be planted any time from October to February. They succeed in any good, well drained garden soil. Dig deep and mix in a little fertilizer. Set the bulbs so that the tops will be between two and three inches below the surface and six to ten inches apart, with a little sand under and above them if it is convenient, being careful that none of the fertilizer comes in direct contact with the bulbs. Early planting brings the best results.

Pot Culture in the House.—Plant from September to December in rich, sandy loam, inserting the bulb (base downward) so that the top is just above the surface. Do not pack the soil in the pots, as the bulbs will be much less liable to push out when the root growth commences if the soil is not packed. Water thoroughly and set the pots away in a cool, dark place for three weeks. This will allow the roots to grow and become firmly fixed in the soil. The plants can then be brought into the light and will at once commence the top growth. Keep near the light, and at a temperature of 50 to 70 degrees. Water frequently.

Water Culture.—Fill the glass with water until the base of the bulb rests on the water. Set away in the dark for three weeks. Fill up the glass with water as fast as it evaporates. If the water becomes impure it should be changed and the roots well cleaned before putting in again. A small piece of charcoal put in the glass will keep the water pure much longer. Give as much fresh air as possible without a direct draught, plenty of light and keep the glasses full of water. If moved out of the direct rays of the sun, flowers will last longer.

SINGLE HYACINTHS

Single Hyacinths are more desirable than the double. They are better for forcing, more vigorous in growth and are more beautiful than those of the double sorts.

Customers at a distance will find it convenient to order Bulbs by mail. Malmo pays the postage.

HYACINTHS—L'Innocence

	Each	Doz.	100
Arentine Arendsen. New. Pure white; very early.			
Extra Selected XX	30c	\$3.00	\$22.50

CROCUS

This is the earliest bulb to blossom in spring. Although most showy when massed in large beds, or when planted in lines of distinct colors, a very desirable effect is produced by setting Crocus here and there over the lawn.

Crocus will care for themselves, blooming very early amid the grass and dying down to the bulb in ample time to be entirely out of the way of the lawn mower. The Crocus should be planted in the autumn, in any good garden soil, about three inches deep and about two inches apart, if in beds or borders.

Malmö pays the postage.

CROCUS

JONQUILS

Slender, graceful, rather small, bright yellow flowers. Very fragrant, borne in clusters on slender stems. The leaves are round and dark green. They force well and are perfectly hardy out of doors.

The Campernelle class are much taller and have larger flowers than the common Jonquils.

Malmö pays the postage.

NARCISSUS OR DAFFODILS

MAMMOTH NARCISSUS—Olympia

GIANT TRUMPET VARIETIES

The flowers of the Giant Trumpet varieties are of large size; the "perianth" or wing-like petals, according to the variety, measure from 2 to 4 inches across, and the "trumpets" or central funnel-like tubes vary from 2 to 4 inches in length. Flowers are borne on strong, stiff stems, which vary in height from 12 to 18 inches.

	Doz.	100
Duke of Bedford. White perianth with loose spreading petals, long deep yellow trumpet, frilled at mouth, each 45c	4.00	35.00

NARCISSUS INCOMPARABILIS—Lucifer

POLYANTHUS NARCISSUS

The Polyanthus Narcissi are very fragrant, borne in large heavy clusters (not suitable for growing outdoors). They are extra early and may be forced indoors either under glass for cut flowers or in pots for blooming as early as the Christmas holidays. After planting they should be kept in a dark place from two to four weeks to make roots, then gradually brought to the light for blooming at whatever time desired. They may also be grown in bowls filled with gravel and water.

POLYANTHUS NARCISSUS—Paper White Grandiflora

POETICUS AND POETAZ NARCISSUS

The Poeticus Narcissus are probably the best known of the short trumpet or cup class. They have only one flower on a stem but are very hardy and multiply rapidly in the ground. They also force well. The blossoms of the Poetaz class are somewhat similar to the Poeticus and borne in clusters of three to eight flowers on a stem.

Customers at a distance will find it convenient to order by mail. Malmö pays the postage.

LILY OF THE VALLEY

One of the most charming spring flowering plants, producing in profusion its delicate bell-shaped, delightfully fragrant white flowers. They thrive best in a rich sandy soil and a shady situation—are perfectly hardy and can be left undisturbed in the open ground, where they will increase from year to year, and are very attractive in beds or borders. For outdoor planting and winter forcing pips are ready December to March.

Selected Pips, for forcing indoors or planting outside-----Doz., 75c; 100, \$5.00

JAPANESE LILIES

Lilies planted outdoors during the fall or early spring, flower each year from June to October. After bulbs are set out they should remain undisturbed for five or six years. They will increase in size, beauty and number of flowers; our Coast climate being perfectly suited to their requirements. They may be planted in open ground or in beds and are very effective when planted in a border either alone or among perennials or shrubbery. Malmö pays the postage.

CHINESE LILIES—See page 9.

HOW TO MAKE A HANDSOME VELVETY LAWN

The best time to make a lawn, we consider, is either in late summer or spring.

Spade the soil deep and cultivate well. If the soil is sour use hydrated lime, about 100 lbs. to 1000 sq. ft., applying it preferably two to four weeks before seeding. Commercial fertilizer should be scattered on evenly and well raked in just before the seed is sown. In sowing the seed be careful to spread it evenly. The best method is to take half of the seed and sow it walking across the lawn, then take the other half and sow it walking lengthways. After the seed is on do not rake, but roll it in. If a roller is not available, tamp the seed into the ground with the back of the shovel. Sprinkle lightly, being careful not to float the seed.

While the seed is germinating and the grass is young extra care should be used, especially during dry weather, that the ground be kept moist. It should never be allowed to dry out but cannot be soaked, so it is necessary to watch it very closely and sprinkle whenever necessary, sometimes as often as three times a day.

Commence cutting as soon as the grass is long enough, and cut often. This will both thicken the grass and make it finer. If cut often the clippings may be left on the ground for fertilizer. They will not be noticeable unless the grass is allowed to grow too long between cuttings.

After the lawn is established it should be thoroughly soaked about once a week during the dry weather. When watering, saturate the ground thoroughly and it will not be necessary to do it so often.

WASHELLI LAWN GRASS

This is the grass that is used exclusively at Washelli Cemetery and has produced all of their beautiful lawns. It is the best mixture of grasses for the purpose of quickly producing a fine, lasting lawn. Each variety of grass is there for a special purpose and nothing but the very highest grade of clean seed is used. It makes a rich, velvety, dark green turf that, when properly cared for, improves with age and stands almost any amount of wear. It starts quickly and makes a good lawn the first season. Sow 1 lb. to every 200 square feet. Subject to market change.

WASHELLI LAWN GRASS (Ask for price on large quantity. Postage extra)---1 lb. 65c; 10 lbs. \$6.40; 100 lbs. \$63.00.

EVERGREEN LAWN GRASS

A special blend of deep rooted, fast growing, turf forming grasses, somewhat coarser than Washelli. It starts quickly and grows well, even on poor soil and for those who want a quick permanent lawn at a minimum price this is the best. Sow 1 lb. to every 200 square feet.

EVERGREEN LAWN GRASS (Subject to market change. Postage extra)----1 lb. 35c; 10 lbs. \$3.45; 100 lbs. \$34.00.

SHADY LAWN GRASS

It is usually quite hard to obtain a good lawn under trees or in other shady places. This grass, however, will grow well and make a thick green turf in places where ordinary grass will not thrive for want of light. Sow 1 lb. to every 150 square feet. Ground that is densely shaded is very apt to be "sour" and as a rule the best results are obtained when an application of Hydrated Lime of about 100 lbs. to 1000 square feet is made before seeding.

SHADY LAWN GRASS (Subject to market change. Postage extra)-----1 lb. \$1.00; 10 lbs. \$9.50; 100 lbs. \$94.00.

COMMERCIAL FERTILIZERS

Prices are f. o. b. Seattle docks, railroads, or delivered in the city on regular delivery routes, and are subject to market changes without notice. (Ask for prices in quantity.)

MALMO'S GARDEN FERTILIZER

Analysis: 2% to 3% Nitrogen as Ammonia, 10% to 15% Phosphoric Acid, 3% to 4% Potash.

The most complete fertilizer for vegetables, fruit, flowers and berries, prepared for the gardener who cannot give the time and labor necessary to treat each individual kind of plants separately. **MALMO'S GARDEN FERTILIZER** is made principally of pure, ground bone meal, dried and pulverized sheep manure, to which is added phosphate, potash and nitrogen, thus containing the necessary ingredients to supply the average percentage of available plant food required by the greatest number of crops at the least expense. It yields this plant food only as the plants require it and is therefore effective and lasting.

5 lbs., 25c; 10 lbs., 45c; 20 lbs., 85c; 50 lbs., \$1.75; 100 lbs., \$3.25.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

SEA-PRO-CO**GRASS FOOD FISH FERTILIZER**

Fish Fertilizer. Good for lawns, roses, etc.

Analysis: 7% to 10% Nitrogen as Ammonia, 2% to 3% Phosphoric Acid.

5 lbs., 35c; 10 lbs., 60c; 20 lbs., \$1.00; 50 lbs., \$2.50; 100 lbs., \$4.50.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

SEA-PRO-CO**PLANT FOOD FISH FERTILIZER**

Analysis: Nitrogen as Ammonia 5% to 7%, Bone Phosphate, 5% to 8%.

50 lbs., \$2.25; 100 lbs., \$4.00; 500 lbs., \$18.50; 1000 lbs., \$36.00; per ton, \$70.00.

HIGH GRADE FISH FERTILIZER

Analysis: 8% to 10% Nitrogen as Ammonia; 10% to 15% Phosphoric Acid.

A high quality ground and dried fish fertilizer, the best for quick results in the growing of roses, or the making and renewing of lawns or other uses where production of luxuriant foliage is desired. Its wonderful rapid action is due to the availability of its high nitrogen content, which is yielded to plant life as fast as it can be assimilated without the danger of over-stimulation or burning attending the use of nitrate of soda. For use on Flowers and Vegetables: Spread evenly over the ground as far out as the roots extend. Cultivate well; keep from stems of tender plants. For LAWNS, apply broadcast and rake in well, 100 lbs. for 1,500 sq. ft.; on old lawns use 100 lbs. to 3,000 sq. ft. Pulverize all lumps, wet with coarse spray.

5 lbs., 35c; 10 lbs., 60c; 20 lbs., \$1.10; 50 lbs., \$2.50; 100 lbs., \$4.75.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

PURE ANIMAL BONE MEAL

Analysis: 2½% to 3% Nitrogen as Ammonia, 22% to 45% Phosphoric Acid.

A white meal made from fresh animal bone. Valuable as a fertilizer where a large amount of phosphoric acid is required, combining also the advantage of a nitrogen content. It releases plant food continually through slow decomposition, making it desirable for use in rose beds and other permanent plantings.

5 lbs., 30c; 10 lbs., 50c; 20 lbs., 90c; 50 lbs., \$2.25; 100 lbs., \$3.75.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

BONE MEAL, COMMON. A meal of lower analysis than above, 100 lbs., \$3.00.

FERTILIZERS—Continued

Prices are f. o. b. Seattle docks, railroads, or delivered in the city on regular delivery routes, and are subject to market changes without notice. (Ask for prices in quantity.)

BLOOD AND BONE

Analysis: 4% to 6% Nitrogen as Ammonia, 7% to 9% Phosphoric Acid.

Blood and Bone is composed of waste animal matter, yielding its plant food quickly when spread over the soil. It is, therefore, valuable for quick growing foliage crops, 500 to 1,000 lbs. per acre.

5 lbs., 30c; 10 lbs., 50c; 20 lbs., 90c; 50 lbs., \$2.00; 100 lbs., \$3.25.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

SHEEP MANURE

Analysis: 1½% to 2% Nitrogen as Ammonia, 1% Phosphoric Acid, 2% to 2½% Potash.

The sheep manure we offer and recommend is kiln dried and finely ground, practically free from germinable seeds and moisture.

20 lbs., 50c; 50 lbs., \$1.25; 100 lbs., \$2.00; 500 lbs., \$9.00; 1000 lbs., \$16.00; per ton, \$30.00.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

MURIATE OF POTASH

Analysis: Potash 52%.

This is a very strong, quick acting fertilizer and is the best form of Potash available for ground that is lacking in this element. It is packed 200 lbs. in a bag and is generally used at the rate of about 1 bag to the acre.

5 lbs., 35c; 10 lbs., 60c; 20 lbs., \$1.00; 50 lbs., \$2.25; 100 lbs., \$4.00; 1 sack (200 lbs.), \$7.25.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

NITRATE OF SODA

13% Nitrogen.

Nitrate of Soda is entirely soluble, like salt and should be used frequently in light dressings for best results; 150 to 200 lbs. per acre.

4 lbs., 25c; 10 lbs., 50c; 20 lbs., \$1.00; 50 lbs., \$2.15; 100 lbs., \$4.00; 200 lbs., or more, \$3.75 per 100 lbs.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

SUPER-PHOSPHATE

17% to 22% Phosphoric Acid.

Super-Phosphate furnishes a quickly available supply of phosphoric acid and is especially desirable as a top dressing for grain and fruit.

300 to 500 lbs. per acre.

10 lbs., 30c; 20 lbs., 50c; 50 lbs., \$1.10; 100 lbs., \$1.75.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

GYPSUM OR LAND PLASTER

For sweetening the soil, freeing plant food and supplying sulphur. 50 lbs., \$1.00; 100 lbs., \$1.75.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery.

HYDRATED LIME

Pure hydrated lime, best adapted for general use, including lawns, neutralizes the acid of the

soil making it possible for fertilizer to accomplish maximum results. This form is quick and efficient. An application will attain the same results as twice the quantity of Ground Lime Rock.

20 lbs., 50c; 50 lbs., \$1.00; 100 lbs., \$1.75.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

GROUND LIME ROCK

Used for sweetening the soil, but on account of slower action must be used in larger quantities than Hydrated Lime. One ton or more per acre required, according to extent of acidity of the soil. Indispensable to success in growing Alfalfa on the west side of the Cascade Mountains.

100 lbs. sack, \$1.25.

An allowance of 25c per sack of 100 lbs. may be deducted for call at store, yard or nursery.

"TORO" AGRICULTURAL SULPHUR

No plant can grow to maturity without the element of sulphur. "Toro" Brand is especially prepared to make these elements available for the plants and to act upon other chemicals naturally in the soil, transforming them into plant food. Applications of from 100 to 500 lbs. of "Toro" Sulphur per acre have, in many cases, doubled the yield.

3 lbs., 25c; 5 lbs., 40c; 10 lbs., 75c; 20 lbs., \$1.35; 50 lbs., \$3.25; 100 lbs., \$6.00.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices.

STIM-U-PLANT

A concentrated fertilizer in tablet form, especially convenient for potted plants, window boxes, etc. May be used either in tablet form or dissolved in water.

30 tablets in pkg., 25c.

We offer a Complete Selection of Bedding Plants After April 15th

SPECIAL OFFER!

Sweet Pea Collections

EARLY FLOWERING VARIETIES

4 15 CENT PACKAGES 50c

Will flower a month to six weeks earlier than regular varieties.

15 TEN CENT PACKAGES \$1.00

We will mail postpaid our selection of fifteen ten cent packets of **GIANT SPENCER SWEET PEAS**, including such varieties as King Edward, King White, Primrose, Asta Ohn, Othello, Mrs. Routzahn, at above price, a saving of one-third.

SPENCER SWEET PEAS

GIANT WAVED ORCHID FLOWERING

This group includes the largest and most beautifully formed Sweet Peas. The Spencers have very large waved flowers which are produced abundantly on long strong stems, making the blossoms most desirable for cutting. They attain their great perfection on the Pacific Coast where they are grown extensively for seed, furnishing the greater part of the supply for the entire country.

CULTURE. Sweet Peas require good soil and plenty of water. On Puget Sound they may be planted from October till Christmas, for early Spring flowering. Most seasons they come through without any protection, but a few inches of straw placed on the row will insure sufficient protection against the frosts usually experienced here. Plant in the Spring as early as the ground can be worked.

The best method of planting is to dig a trench 12 to 18 inches deep. If the soil is not good, remove the poor soil and supply a good quality, using plenty of fertilizer, which should be well mixed with the soil, filling up the trench to within three or four inches of the top. On top of this mixture of soil and fertilizer, place about one inch of good mellow soil without any manure or fertilizer in it, on which to sow the seed. Cover the seed one-half to one inch with soil, a half inch being preferable. The trench should always be kept open an inch or two from the top in order that water used will lead to the plants. Sweet Peas require more moisture than most other plants, and whenever it is necessary to water them, soak them thoroughly. When the seeds are well up, thin them out and when grown to one or two inches, fill in some more soil around them.

When the Peas are in bloom they should, unless grown for seed, be cut every day. If this is done they will produce better blooms on longer stems and blossom profusely all through the season.

One ounce will plant 15 to 20 feet of row.

Malmo's Mixed Spencer Sweet Peas

This is made up from standard varieties named Spencers, properly blended, and is an ideal combination for those who want a variety of color.

Pkt., 10c; oz., 25c; 1/4 lb., 75c; 1 lb., \$2.50 (Postpaid)

PERENNIAL OR EVERLASTING SWEET PEAS (LATHRUS LATIFOLIUS)

White, Pink, Red, Mixed. Pkt., 10c; per oz., 75c.

(Postpaid)

SPRAY PUMPS

HAND SPRAYERS

Made of heavy tin, suitable for spraying small plants and rose bushes. Capacity about 1 quart; 50c each.

CONTINUOUS HAND SPRAYER

Made of heavy galvanized iron, and if properly cleaned after using, will last many times longer than the ordinary tin sprayer. Throws a continuous spray and has an extra nozzle for spraying at an angle. \$1.25 each.

ALL BRASS CONTINUOUS

Throws a steady spray. All parts removable for cleaning, and being made entirely of brass, will outlast any other hand sprayer. \$1.50 each.

STANDARD SPRAY PUMPS

Double acting, all brass, continuous. Pump is held in both hands and suction hose is dropped into a bucket. \$5.50 each.

HANDY POWDER DUSTER

Easy to operate. The reservoir is filled with dry powder. Size of spray depends upon operation of plunger. Funnel and elbow are reversible, enabling operator to spray up or down. 80c.

WHEELBARROW SPRAYERS

No. 85-A

No. 40. 18-gallon tank made of heavy galvanized steel, reinforced with iron bands; a standard pump with an air chamber fastened to the tank by a spider casting. Frame made of steel tubing well braced. Tank easily removed. Single wheel 18 inches, with 2½ inch face. Ten feet of ½-inch, 5-ply hose, 4 foot spray rod and shut-off nozzle. \$28.00.

No. 40-A. Same as above, but has an air pressure tank mounted on the spider. Sufficient pressure may be attained and considerable spraying

done with one pumping. Has pressure gauge and drain plug. \$40.00.

No. 85-A. Same as No. 40-A, except that it has two wheels and the handles are connected at the rear. This makes it narrower (18 in.), which permits its use in greenhouses, where the aisles are narrow, and allows it to be moved with one hand. \$47.00.

NOS. 10 AND 15 COMPRESSED AIR SPRAYERS

The No. 10 tank is made of galvanized steel, the No. 15 of brass; holds 3½ gallons. Seam closely riveted and all joints well soldered and tested.

Pump, brass, with bronze ball valve. One-half inch 5-ply hose attached to tank with standard brass hose connection. Filling cap easily removed without a wrench. Angle nozzle, automatic shut-off type, brass, with strainer, fine, medium and course discs.

No. 10 Galv. tank----\$7.00
No. 15 Brass tank---- 9.00

ALL BRASS BUCKET PUMP

All parts except handle and foot rest made of brass. Gives a strong, steady pressure on the nozzle with little exertion. Comes with 2 feet of hose and adjustable nozzle. Will handle whitewash as well as spray materials. \$5.00 each.

NO. 185 COMPRESSED AIR SPRAYER

A small compressed air sprayer, holds about 1 gallon. Constructed same as No. 10, except that the discharge is through a pipe. The nozzle is brass and has a strainer. \$4.00 each.

SPRAY MATERIAL

If you do not know what to spray with, write us giving all the information that you can and we will be glad to advise you what to use. Prices subject to market change. Postage extra. Poisons cannot be mailed.

Arsenate of Lead. For spraying trees and shrubs or plants against the attacks of leaf-biting or leaf-eating insects. Can be combined with other sprays. Use 1 to 2 lbs. to 50 gallons of water; 1 to 2 tablespoonfuls to a gallon. Poison, not mailable. ½ lb., 35c; 1 lb., 65c; 5 lbs., \$2.50; 25 lbs., \$12.00; 50 lbs., \$19.00.

Nicotine Sulphate. (Hall's Nicotine Sulphate) (Black Leaf 40). Poison, cannot be mailed. A concentrated solution of nicotine sulphate containing 40 per cent nicotine. Fish oil soap mixed in this solution makes it more effective and is necessary for perfect results. 1-oz. bottle, 35c,

makes 5 gals. spray; ½-lb. can, \$1.25, makes 47 gals. of spray; 2-lb. can, \$3.50, makes 240 gals. spray; 10-lb. can, \$13.50, makes 1000 gals. spray. Full instructions with each can.

Bluestone. 1 lb., 15c; 10 lbs., \$1.40.

Bordeaux Mixture, Dry Powdered. Quickly dissolved in water. Used for fungus diseases such as mildew, potato scab, tomato blight, etc. Can be used in combination with Arsenate of Lead or Paris Green. 8 lbs. to 50 gals. of water. 1-lb. can, 40c; 5-lb. can, \$1.50; 25-lb. drum, \$5.00. Poison, cannot be mailed.

SPRAY MATERIAL—Continued

Carco Vegetable Spray for root maggots, cutworms, scale, mildew, etc. $\frac{1}{2}$ pt., 35c; 1 pt., 60c; 1 qt., \$1.00.

Crest Spray. A vegetable oil spray for scale, aphids and root maggots. Will not injure foliage or tender plants. May be used either as a dormant or summer spray. 1 gallon makes from 50 to 100 gallons when diluted. 1 pint, 35c; 1 quart, 60c; $\frac{1}{2}$ gal., \$1.00; gal., \$1.75; 5 gals., \$7.50.

Fish Oil Soap. 1 lb., 15c; 10 lbs., \$1.25.

Formaldehyde. Poison, cannot be mailed. Kills scab and prevents blight on potatoes. 1 pint makes 30 gallons. Soak seed potatoes in solution for two hours. $\frac{1}{2}$ pint, 50c; 1 pint, 90c.

Hellebore. For currant worms and chewing insects. $\frac{1}{2}$ lb., 35c; 1 lb., 50c.

Dry Lime Sulphur. Lime and sulphur solution in a dry powdered form. Instantly soluble. Does everything that lime sulphur solution will do. Is easier to handle and will keep indefinitely if container is closed tight. It weighs about one-sixth as much as the liquid, so will save in transportation and handling charges. 1 lb. makes 5 gallons. 1 lb., 30c; 5 lbs., \$1.25; 10 lbs., \$2.00; 25 lbs., \$3.75; 50 lbs., \$7.00; 100 lbs. \$11.50; 200 lbs., \$20.00.

Lime Sulphur Solution (Liquid). Dilute 1 part to 10 parts water. (Cannot mail.) 1 qt., 30c; 1 gal., 75c; 5 gals., \$2.75; bbl. (about 50 gals.), \$13.00.

Mag-O-Tite. For the prevention of root maggots. 2 lbs., 25c; 4 lbs., 50c; 8 lbs., 75c.

Paris Green. 8 lbs. to 50 gals. of water. 1-lb. can, 55c; 4-lb. pkg., \$2.00; 14-lb. pkg., \$6.00. Poison, cannot be mailed.

Slug Shot. 1 lb., 25c; 5 lbs., \$1.25.

Sulphur. Powdered. Lb., 5c; 100 lbs., \$3.00.

Rose Spray. Kills mildew and aphids on rose bushes and other plants. Pt., 35c; qt., 65c.

Hall's Nicotine Sulphat (Liquid). 40% Nicotine. For outside spraying. An efficient insecticide for plant lice and similar soft-bodied insects attacking plants and trees. 10-lb. can, \$14.75; 2-lb. can, \$3.50; $\frac{1}{2}$ -lb. can, \$1.25.

Hall's Free Nicotine Solution (Liquid). 40% Free Nicotine. Prepared especially for fumigating and spraying in greenhouses and general inside work. 8-lb. cans, \$15.00; 2-lb. cans, \$4.25; $\frac{1}{2}$ -lb. cans, \$1.40.

HALL'S NICOTINE FUMIGATOR

Effective and economical for fumigating greenhouses. A specially prepared tobacco powder, treated to insure proper burning qualities, saturated with pure nicotine—12 $\frac{1}{2}$ % guaranteed. Packed in airtight tins.

Easy to Use

A measure is enclosed in each tin. Fill measure, press in gently and empty the cone of fumigator on a tin plate.

Light cone at top. It will light easily, burn evenly, and will be consumed in five minutes. The cone should be placed at least 12 inches above the floor. One cone will fill 7000 cubic feet.

1 lb. cans, \$1.25; 2 $\frac{1}{2}$ lbs., \$2.50; 10 lbs., \$8.50.

MALMO'S 1926 Catalog and Planting Guide

*Ready to Mail

Creating

A Landscape Setting for Your Home

THE artist who conceives and paints a masterpiece has no greater problem than he who creates and effects a beautiful landscape setting for the home. Both require highly specialized knowledge.

The landscape department of MALMO & COMPANY is comprised of men skilled in creating a harmonious ensemble—having extensive experience in designing gardens, expert in the proper method of planting and versed in the knowledge of horticulture.

It is a SERVICE through which you will obtain the maximum effect with the minimum expenditure and effort.

This service is extended to our patrons to facilitate the effective planting and care of MALMO grown, ornamental evergreen trees and shrubbery.

SEATTLE, WASHINGTON
